

Eric's new book, "Bearing Precious Seed" The story of CrossWalk and FourSmiles, is scheduled to be out in May 2019.

Dear Friends and Family,

Jan. 2019

Beth and I greet you in the mighty name of Jesus! I am very excited about this year. As I think about last year, I can only stand in awe. We interacted with hundreds of thousands of people from all over the world last year with CrossWalk. I never understood the name "Global Reach" until this year. Yes, I always understood that we have a calling to the nations, but it wasn't until this year that I realized that we are literally touching the "nations" as we walk with the cross in these capital cities. From D.C. to London, Paris, Brussels and Miami, our seed has gone out to the ends of the earth. Literally, it is a "Global Reach".

When we were students at Oral Roberts University, we always loved hearing Dr. Roberts teach on the power of Seed Faith! I noticed that many students would turn him off, refusing to listen. Of course that was to their own detriment. But I knew that I needed to hear about the power of "Seed". I believe that we received an impartation concerning "Seed-time and Harvest", a revelation that we are working in today.

Beth and I are so grateful to our partners who have sown into this ministry for so many years. You will be amazed in Heaven at the harvest of the nations that will be yours. Thank you for sending us!

Italy January 2-13th

Beth and I appreciate your prayers as we stay focused on Europe. Europe is being pulled in many directions and in this time of stretching and turmoil we must get seed into the soil. This pressure upon Europe is opening places into the hearts of beautiful European people that have been closed for so long. In December, as I walked in London, I could sense a hardness upon the people that I haven't felt for many years. The CrossWalk definitely had the touch of God upon it. The Lord gave us a weather miracle for our Saturday event. It rained all over London and the south of England but not where we were. Though I bring up one negative reality of Europe, I will rejoice in the people we prayed with and the 17,500 people that took the Smile tracts. Many of these people would walk past, only to turn around and come back and ask for a tract. Others would say "no" while reaching out their hands to take a Smile tract. We watched one muslim lady wearing the hijab defy her husband as he attempted to take away her Smile tract. She refused him strongly! God was working but in the midst of it all there was a noticable hardness.

After London I was scheduled to go to the Arc of Triumph in Paris. Obviously my French team suggested that we should reschedule our outreaches in France for now. (Too much tear gas due to the protests). Now, I am off to Italy where I will be preaching in churches as well as walking with the cross in multiple cities and villages.

We love you! Thank you for standing with us in harvest, Eric

PS. As you sow, we become empowered to sow! Once the seed dies, resurrection power can then come. That power causes life to surge back into the seed, granting it new authority! The soil now becomes a servant to the needs of the sown seed. As you sow, see resurrection life and authority being released through your gift!
