Tune in every Sunday PM or Monday AM for our weekly episodes on evangelism and prophetic perspectives on the days we live in.

Turning Our Focus On America

Dear Friends and Family,

Feb. 2021

I have a short but prophetic encouragement for you as you hold this letter. Jesus is coming and we must be ready and we must be found doing. Many of you that follow this ministry attend churches where there seems to be a disconnect in the realm of the spirit. Our nation is on fire, but inside the church everything seems cool in Zion. I have been searching for churches in my area that actually pray fervently for our nation, but have found none! How can this be? How can we, who have received so many blessings by being a citizen of this great nation not sense the urgency to protect her and to stand for her? What about her children who are being targeted with every perverted doctrine under the sun? The very things they are teaching our children are the things nations like Sodom were destroyed for. Wake Up America, Wake Up Church! What about the children globally that have now been moved back into the crosshairs of the abortion industry? It is estimated that 6 million children (globally) were spared from abortion during President Trump's term in office - elections do matter. The cry of babies soon to be aborted has already reached the throne of God, and in His mercy He waits to see if the church will cry on their behalf. I believe the Lord holds the church accountable, and more so, her leaders. The majority of them have failed.

Because I am a missionary I see things differently, I see things from the experiences I have had walking through nations that have known terrible oppression. I also remember the stories of my parents helping smuggle Bibles into the former Soviet Union. What is the answer? We must realize as a nation our true state. We must realize what we have lost. We must watch and pray before we lose that which we have left. I am believing for one more last push of the Spirit of God across our great nation. I am believing for a whirlwind of His presence to create one more operational season for the western church to get the gospel out to the four corners of the earth. Though I see such evil mounting up, I also sense a wind of the Spirit of God that is going to course correct many things that are terribly wrong. Judgments are coming!

As I continue to walk with the cross in Florida, continue to stand with us. As I walk, I prophesy over Florida and of course our beautiful America. Go to our website and check out our new Podcast TV. The current series we are doing is on the spirit of watching. Don't miss it.

We love you and pray for you. Yours in the Harvest,
